The List for Independent Pension Supervision

(LvOP) has a fresh perspective on pensions. The last 4 years we have proven to be independent, critical and in full knowledge. Our goal is to make the ABP pension fund more independent, more transparent, and more sustainable.

Independent

A party, independent from employers and unions, is required to ensure full accountability of the ABP board. Also, a **fair and balanced** approach to the interests of both **younger and older** participants.

Transparant

LvOP has achieved many successes in the past 4 years. But we are not there yet. LvOP demands **full transparency** from the ABP board regarding how their decisions affect you.

Sustainable

We want more sustainable investments. This means no investments in companies who produce weapons or who violate human rights. And with consideration for the environment so that **there is a world left to enjoy** when you retire.
